"Eco-Heritage: Cultures United for Nature" is an international eTwinning project that aims at bringing together students aged 14-18 from diverse cultural backgrounds. They will explore the connection between cultural heritage and environmental sustainability. They will perform collaborative activities, and digital tasks. Students will also learn about each other's cultures and environments, develop digital literacy, and engage in efforts to preserve both their natural and cultural heritage. This project aims to foster a sense of global citizenship as well as motivating students to become environmentally-conscious individuals. As a result, they will struggle for the protection of our shared heritage and planet.

At the beginning of the project, students introduced themselves by creating talking avatars by the use of some digital tools such as Vidnoz.

They introduced the schools and created logos to choose the best one. They also learned about the netiquette, internet safety.

ONLINE MEETINGS

Partners met online three times and teachers once without students. One of the meetings was for introduction, the second for New Year or Christmas traditions and the third one for Historical Sites presentations.

They had some collaborative tasks such as multilingual dictionary based on ecological words, an ebook of a specific landmark in each country and the project website.

"Eco-Heritage: Cultures United for Nature", 14-18 yaş arası farklı kültürel geçmişlere sahip öğrencileri bir araya getirmeyi amaçlayan uluslararası bir eTwinning projesidir. Öğrenciler, kültürel miras ile çevresel sürdürülebilirlik arasındaki bağlantıyı keşfedeceklerdir. Ortak çalışmalar ve dijital görevler gerçekleştirecekler; birbirlerinin kültürlerini ve çevrelerini tanıyarak dijital okuryazarlıklarını geliştirecek ve hem doğal hem de kültürel mirasın korunmasına yönelik çalışmalara katılacaklardır. Bu proje, öğrencilerde küresel vatandaşlık bilinci oluşturmayı ve onları çevreye duyarlı bireyler olmaya teşvik etmeyi hedeflemektedir. Sonuç olarak öğrenciler, ortak mirasımızı ve gezegenimizi koruma mücadelesinde aktif rol alacaklardır.

Projenin başında öğrenciler, Vidnoz gibi bazı dijital araçları kullanarak konuşan avatarlar oluşturarak kendilerini tanıttılar. Okullarını tanıttılar ve en iyisini seçmek üzere logolar tasarladılar. Ayrıca, çevrim içi görgü kuralları (netiquette) ve internet güvenliği hakkında bilgi edindiler.

ONLINE MEETINGS

Ortaklar çevrim içi olarak üç kez öğrencilerle, bir kez de sadece öğretmenler arasında olmak üzere toplandılar. Toplantıların ilki tanışma, ikincisi Yeni Yıl veya Noel gelenekleri, üçüncüsü ise Tarihi Mekanlar sunumları içindi. Öğrenciler; ekolojik kelimelere dayalı çok dilli bir sözlük, her ülkeden belirli bir simgesel yapıya (landmark) ait bir e-kitap ve proje web sitesi gibi iş birliğine dayalı görevler gerçekleştirdiler.
